

## VFR or IFR? It's your call.

*The Pilot's Manual: Access to Flight* is a breakthrough textbook that combines the Private Pilot and Instrument Rating ground schools into a single curriculum. Flying steam gauge instrumentation or glass cockpits, at small airports or in metropolitan airspace, this combined curriculum is an effective approach to getting the most out of your flight training dollars to maximize the utility of your pilot license and airplane. You will be prepared to use your new license whether there are blue skies or clouds — your own personal transportation solution.

**The Pilot's Manual:  
Access to Flight** | \$74<sup>95</sup>

*Training Starts Here.*

See our complete line of study aids, textbooks, pilot supplies and more at your local airport and in bookstores nationwide. Call 1-800-ASA-2-FLY for your nearest dealer.
