Remember...

Not All FAR/AIM Products Are Created Equal

ASA has built a reputation for providing the aviation community with the most accurate and reliable FAR/AIM products available.

Pilots are obsessed with information. Whether it be knowing the right “numbers” to fly their aircraft, studying weather data for planning that next flight, or researching regulatory requirements, information is critical to flight safety. In today’s information-saturated world, finding a definitive, trusted source is invaluable.

ASA’s FAR/AIM products have been the standard regulatory reference of the industry for nearly 30 years.

- Most accurate, complete, and up-to-date content available.
- FREE e-mail update subscription service keeps readers up-to-speed on regulation changes throughout the year as changes are released by the FAA. (Latest update posted just days ago!)
- FAR/AIM has a user-friendly, *combined* FAR and AIM index. Simply the easiest way to find what you’re looking for fast!
- Changes and updates are clearly marked.
