ASA's 2007 Catalog Now Available

Newcastle, WA—Aviation Supplies & Academics, Inc. (ASA) announces the release of their 2007 catalog. ASA's annual catalog is the company's primary tool to inform the aviation community of product descriptions, part numbers and pricing for the complete product line. This product line consists of textbooks for pilots and aviation maintenance technicians, test preparation books and software, FAA handbooks, pilot supplies, and flight simulation and tutorial software—300+ products published or manufactured by ASA.

The 40-page, full-color 2007 Product Showcase features more far-ranging coverage of aviation topics with the new titles added to the ASA library. All new items are clearly marked. ASA remains committed to supplying the industry with the most current FAA publications, including Practical Test Standards and Handbooks. The Test Prep, Prepware, Virtual Test Prep and FAR/AIM series are published annually to ensure pilots have the most current information available. The ASA pilot supply collection and innovative software—including the new On Top Version 9, ELITE simulation solutions, ROTAX 912 DVD, and *Microsoft Flight Simulator as a Training Aid* book by Bruce Williams—keep students, pilots and instructors flying. Each product is explained in detail and accompanied by full-color images.

This new catalog continues ASA's mission—“**Training Starts Here**”—and offers a wide spectrum of products specifically designed to meet the needs of all aviators, including pilots, flight instructors, airline transport pilots, flight engineers, flight attendants, air traffic controllers, and aviation technicians.

ASA is an industry leader in the development and sale of aviation supplies, software, and publications for pilots, flight instructors, flight engineers, air traffic controllers, flight attendants, and aviation technicians. ASA's corporate headquarters are located at 7005 132nd Place SE • Newcastle, WA • 98059. For additional product information call 1.800.ASA.2.FLY or 425.235.1500, or visit ASA's online catalog (www.asa2fly.com) and select the desired product category, or use the search window to find specific products.
