2010 FAR/AIM Series Now Available!

Newcastle, WA—ASA’s 2010 FAR/AIM Series is now available. Both the *FAR for Flight Crew* and *FAR for Aviation Maintenance Technicians* are currently available. The *FAR/AIM* book and *Flight Library Pro* DVD will be available September 9.

For more than 25 years, ASA’s Federal Aviation Regulations and *Aeronautical Information Manual* (FAR/AIM) books have been the standard regulatory reference of the industry. ASA has built a reputation for providing the aviation community with the most accurate and reliable FAR/AIM products available. For 2010 we continue this tradition by including the most current regulations, AIM, and Transportation Security Administration rules affecting the aviation industry, compiled throughout the year and available at the time of printing.

ASA consolidates the FAA regulations and procedures into three easy-to-use reference books and one DVD with information pertinent to pilots, flight crew, and aviation maintenance technicians (AMTs). In all ASA FAR/AIM Series books the changes are marked clearly for quick reference, and indexes provide clear and intuitive access to the subject matter and paragraph number or regulation. The *Aeronautical Information Manual* is reformatted for greater readability, and the full-color graphics provide excellent image detail and straightforward interpretation. The FAR/AIM has a user-friendly combined FAR and AIM index at the back of the book for quick and easy lookups.

FAR/AIM Series Updates are available at www.asa2fly.com/farupdate as free downloads and/or through a free email subscription service for automatic notification when a rule has changed. With the Federal Register released daily, yet the books and DVD only printed once a year, this Update service ensures pilots stay informed throughout the year. The quality books, DVD and Update service are what sets ASA apart from any other source available for the rules and procedures surrounding the aviation industry.
