ASA and Elite Team-Up to Provide Simulation Excellence

Newcastle, WA—Aviation Supplies & Academics, Inc., reinforced its commitment to provide the best aviation training materials with the addition of the Elite Simulation Solutions to the ASA product line.

On the heels of releasing OnTop Version 9, ASA is proud to announce an alliance with Elite Simulation Solutions. “ASA simulation software has provided excellent training for thousands of pilots who use it as part of their personal proficiency program. As simulation training becomes a staple of every pilot’s training, the need for more sophisticated simulation training grows,” says ASA General Manager Mike Lorden. “This alliance allows both companies to focus on its strengths, with the industry coming out the winner. Elite’s reputation for precision aerodynamics, quality flight control engineering, and FAA-approved simulators up to the IGATE series of Advanced ATDs is the ideal partner with ASA’s experience and expertise in providing training materials, including FITS-accepted scenario-based training.”

ASA will offer Elite products in its catalog and through its distributor network, alongside the popular ASA desktop flight simulation software packages: On Top Basic ATD, On Top, IP Trainer, and Instrument Refresher: An IPC Simulator. Orders are now shipping!

Product	Part Number	Suggested List Price
<i>Software</i>		
Elite Core Software V8.0	ASA-EL-CORE-V8.0	\$199.00
