ATP Flashcards from ASA

A Useful Study Aid

Newcastle, WA—ASA Flashcards keep cockpit skills sharp and help pilots prepare for that important test, checkride, or interview!

“Flashcards Study Guides” help pilots develop and maintain a solid core-knowledge of the rules and regulations that are a part of a pilot’s daily life. Designed to be easy to pack and carry, flashcards provide pertinent regulatory questions with detailed answers and references for further information.

Updated to include the latest rules and operating procedures for airline operations. *Flashcards for ATP* provides 80 practice questions from 14 CFR Parts 119, 121, and 135.

Written by airline pilot instructor and author, Ron McElroy, these flashcards are especially helpful for folks preparing for an ATP checkride or airline interview. Printed on heavy card stock in a 4" x 6" format, shrink-wrapped in clear plastic. A hole punched through the cards and a metal ring clip help to keep the cards in order.
